

Welcome

This page is provided as the entrypoint to the different topics of this user-guide.

Try it out

- Kubevirt on Killercoda: <https://killercoda.com/kubevirt>
- Kubevirt on Minikube: https://kubevirt.io/quickstart_minikube/
- Kubevirt on Kind: https://kubevirt.io/quickstart_kind/
- Kubevirt on cloud providers: https://kubevirt.io/quickstart_cloud/

KubeVirt Labs

- [Use KubeVirt](#)
- [Experiment with Containerized Data Importer \(CDI\)](#)
- [Experiment with KubeVirt Upgrades](#)
- [Live Migration](#)

Getting help

- File a bug: <https://github.com/kubevirt/kubevirt/issues>
- Mailing list: <https://groups.google.com/forum/#!forum/kubevirt-dev>
- Slack: <https://kubernetes.slack.com/messages/virtualization>

Developer

- Start contributing: [Contributing](#)
- API Reference: <http://kubevirt.io/api-reference/>

Privacy

- Check our privacy policy at: <https://kubevirt.io/privacy/>
- We do use <https://netlify.com> Open Source Plan for Rendering Pull Requests to the documentation repository
